## About Our Team

Team 973 (The Greybots) is a robotics team from Atascadero, California. We participate in the First Robotics Competition (FRC), which is a program that focuses on inspiring kids in the fields of STEM. Every year we strive to create a hands-on, project-based, and educational environment where students collaborate and teach each other in order to build the best robot we can in six weeks.

Our team builds an industrial-size robot using professional equipment and techniques. The Greybots strive to teach our students beneficial skills that will be used in their futures.

Every year, FIRST sets up competitions in which thousands of teams from places worldwide are able to compete. At the beginning of the year, FIRST reveals what the competitions and rules are going to be, and teams have six weeks to build a robot to compete.

# Team History

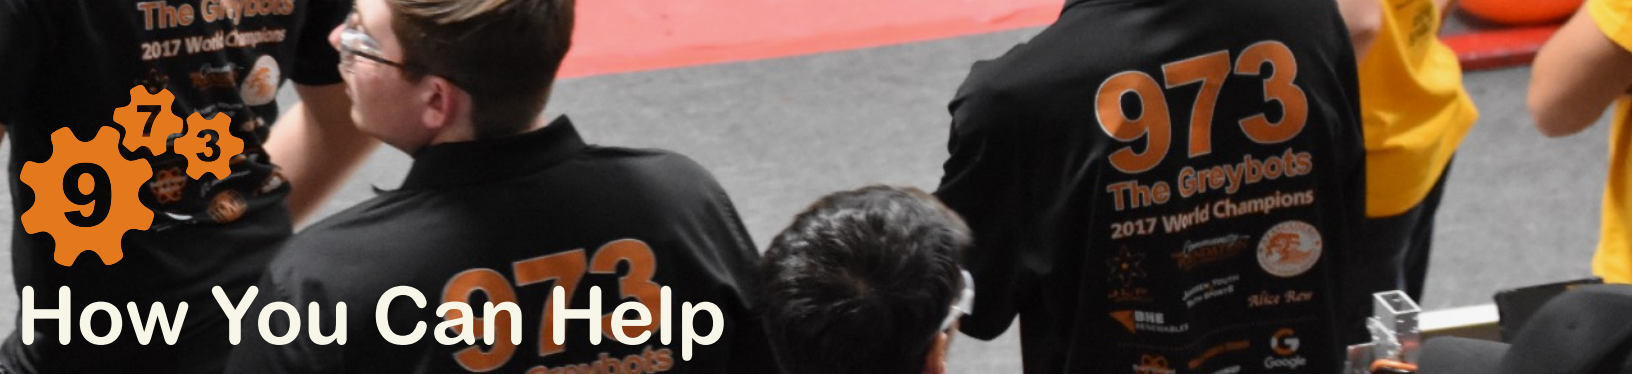

Team 973 “The Greybots” was started in 2002 by John Miron, a physics teacher at the Atascadero High School, and a small group of high school students. 17 years later, it has grown into a high-level team with 28 skilled students and 7 talented mentors. The Greybots have inspired countless students to move onto higher education and pursue careers in STEM.

The Greybots have been able to win the world championships in 2011, 2017, and 2019, making us one of seven teams that have won three world champs. We hope to have your help in winning another one this year.

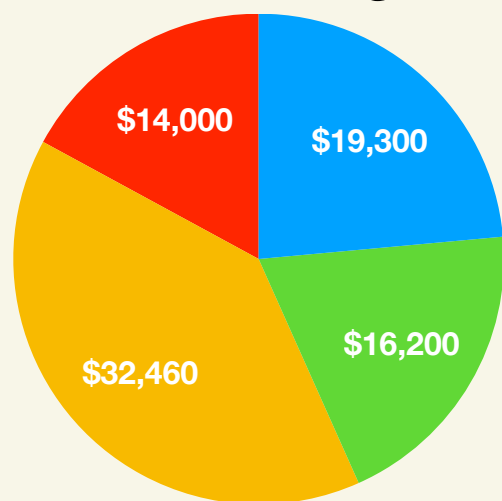

Since 2017, The Greybots have held annual Vex IQ robotics events and summer camps for middle schoolers to get younger students in our community excited about technology and robotics.

# How You Can Help

## Team Budget

- Robot Cost
- Regionals Travel
- Championship Travel
- Competition Registration

**Total Budget: \$82,960**

If you are able to help our team out, we would really appreciate it. Your donation would help us afford the cost of materials and competitions. Our students are very passionate about this program, and your support will enable our students build something they're proud of.

## Sponsorship Tiers

**Grey [\$100+]**

Name on website

**Orange [\$500+]**

Name on website, 973 Certificate

**Silver [\$1000+]**

Medium logo on robot, name on website, 973 Certificate

**Gold [\$2500+]**

Large logo on the robot and team T-Shirt, name and logo on website, 973 Certificate

**Platinum [\$5000+]**

Named sponsor in FIRST Programs, large logo on the robot and team T-shirt, name and logo on website, 973 Certificate
